Wastewater Rates vs Special Area Rates

- Some residents pay a Special Area Rate (S.A.R.) on their Property Tax bill for the wastewater systems.
- In 2020, with the transition to a one-rate system across the Township, S.A.R.s will be removed from Property Tax bills. As a result, residents will see a decrease on their property tax bill.
- To offset this loss in revenue from the S.A.R.s, which was used to fund the wastewater systems, an offsetting increase will be seen in the wastewater rates.

Wastewater Rates vs Special Area Rates

- Benefits of transferring the wastewater S.A.R. to the Water/Wastewater bill:
 - Users will be able to see the full charges for water and/or wastewater on one bill
 - Expected to have less confusion in regards to billings and charges
 - Water and/or wastewater rates are linked to water usage whereas the S.A.R.s were linked to property assessments
 - Once setup, ease of administration and monitoring
